**Embrace Sustainability  
for a Better Future**

---

Today we find the world is changing at a rapid pace, our youth today are growing up faster than ever before.

Globalisation and exposure bringing with its positives in information but negatives in a quiet erosion of our culture and beliefs.

## **What is to be Indian?**

We stepped far behind from being a land of soothsayers and snake charmers, from a country untouched by modernisation, today India stands as a nation of Industrialists, scientists, innovators and change propellers

I strongly believe - Shaping a child is equal to caring for a seedling.  
Wait patiently to reap it's benefits

## FROM THE PRINCIPAL'S DESK

Greetings from SRN,  
As we enter into an other academic year , it is with great pride to look into students adapting the new routine with ease. These first two months were filled with lots of activities, experimental learning, and to add an array of learning avenues we offer.

Our team has worked towards every changing demand which has made all this possible and would like to acknowledge the effort and the extraordinary commitment of the entire **Faculty**

Our resounding ideology and ethics have given our students and education that prompts to be liberated, confident and importantly grounded individuals.

I would like to thank our parents for their continued support as ever. I wish you all a happy schooling year.

SRN school is the one that shines with authenticity. It has an environment that makes students feel safe and happy while there is no doubt that teachers and staff only want the best for students.

## what makes SRN different :

The biggest factor that differentiates SRN from the rest is how it recognises the potential of every individual child and gives complete support and freedom to attain excellence. SRN creates an environment of warmth and love and nurtured every child to their best. Schooling with SRN is truly the best.
